- The new Mistika 8.7 version will be showcased, equipping professionals with the most innovative and accessible 'Immersive Reality' toolsets and workflows, alongside VR streaming with Oculus glasses integration. Highlighting VR/360 in project finishing, SGO will also present its distinctive, forward thinking 3D feature-sets, VR Mode and VR Device connections, depicting how Mistika provides Colour Grading, HDR, Stereo and Compositing in Virtual Reality in just one system. Other key highlights include revolutionary new colour grading tools for HDR, smart copy/conforming and the introduction of a highly accurate and intuitive point-and-click 3D Keyer.
